

Goals for Cahoot alpha release

Luke

- Map feature: for now, just link to a picture of the map to show the function
- image buttons for “login” activities
- update activity names

Joyce

- drop-down menus for classlist and universities (not backup with a database)
- floating windows for “Check-in” button in the “Studydetail” activity.

Mingjue

- “back” button on “createstudy” activity to “makestudy” activities
- fetch data that users type in from previous activities
- Action bar
